

Voyager

the recruiter's choice

Drag&Tag is a collaborative research tool and is now integrated with Voyager, the core recruitment workflow tool for thousands of Recruiters worldwide.

Drag&Tag provides a simple and fast way for users to hotlist information found online and in email in a team based enterprise product that can create records in Voyager with just 2 clicks .

Drag&Tag integrated with Voyager improves workflow and speeds up the recruitment processes and that is why we decided to invest in offering this integration without charge to our customers.

Key Benefits

- Retains the intellectual property you currently lose
- Links browser, Outlook, users hotlists and Voyager together in an application providing enterprise control and graphical activity analytics
- Create records in Voyager direct from the browser and Outlook
- Get teams collaborating and sharing information actively and passively
- LinkedIn integration—make searchable every users connections, annotate profiles, and link directly to Voyager

What's being said

'Drag&Tag is an excellent way for businesses to organise and share useful information, and any manager who has seen vital knowledge walk out the door when key staff leave will understand why they need Drag&Tag.'
Ann Swain, Chief Exec. APSCo.

'Drag&Tag helps recruitment businesses protect and grow one of their biggest assets, their intellectual property'
Jon Butterfield, CEO. ReThink Recruitment.

Besides the improvement in our Applicant registration process Drag & Tag has also allowed our consultants and senior management team to share important sector, project and client information and make informed decisions in our dealings with existing clients and provide us with an insight to new prospects.'
Barry Potier. Director. Resourcing Solutions

Drag&Tag is a great tool for Head-hunters, the pro-active recruiter and resourcing teams.
Paul Thompson, Sales Director. Voyager
